

Artificial intelligence to feed 10 billion earthlings

CONFIDENTIAL & PROPRIETARY

FLUX MAGIC

- Eddy enables plants, sensors, software, and growers to ***speak the same language***
- AI and machine learning bring ***sophisticated forecasting and analytics to growers***, as well as valuable intelligence to new markets and verticals
- Flux's ***advanced technology***, borne of the Israeli military, is far beyond what other solutions can offer
- ***Image recognition and nanotech sensor IP*** will further advance our lead by allowing Eddy to detect pests and diseases, harvest time, and plant stress

Let's Grow Together
