for Food Safety & Security
Tel Aviv University

The Third Annual Workshop on Israel, Sustainable Agriculture and the Developing World 13.7.2016, Tel Aviv University

The Department of Public Policy and the Manna Center Program for Food Safety & Security at Tel Aviv University are pleased to announce the third annual workshop on **“Israel, Sustainable Agriculture and the Developing World: Fulfilling the Technological Potential”** which will take place in Tel Aviv University on Wednesday, July 13th, 2016.

The purpose of the workshop is to bring together academic researchers, private companies, government and NGOs for an applied discussion about ways to fulfill the potential of Israeli technology and knowledge to contribute to global food security and sustainable agriculture, with an emphasis on smallholder farmers in developing countries.

If you wish to present your work and to develop collaborations for piloting, measuring and deepening its commercial, social and environmental impacts in the field, please **register [here](#)**. To attend, please **RSVP [here](#)**. The workshop will cover the domains of:

Water and Irrigation | **Seeds** | **Fertilizers and Soils**
Health and Nutrition | **Extension and IT** | **Energy**

The full program will be published shortly.

For additional details, please write to Dr. Ram Fishman (ramf@post.tau.ac.il)
